OUT IN THE HEART OF MIDDLE AMERICA, A RUMBLING WAS HEARD. AN INSPIRATION WAS DISCOVERED, WAS IT A NEW SCIENTIFIC DISCOVERY, A NEW POLITICIAN, THE 1971 TUCKER OR THE PEPSI GENERATION? IT CRACKED, FIZZLED AND SHOCKED! THE PEOPLE HEARD IT AT NIGHT OR DURING THE DAY WHEN IT WAS DREARY, SOMETIMES IT SCARED THEM, UNLESS THEY LIVED IN THE IMMEDIATE VICINITY OF LIMA, OHIO. FOR THERE PEOPLE CAN LOOK UP AND ASK OF A HOT FLASH IN THE HEAVENS; ARE YOU A BIRD, ARE YOU A PLANE, ARE YOU SUPERMAN, THE ANSWER IS: IT'S THE THRICE A YEAR, END-OF-THE-QUARTER GRAND FINALE END-OF-THE-MILLENIUM HOT FLASH:

HOT FLASH!

LIMA CAMPUS OF THE OHIO STATE UNIVERSITY; THE DATE MARCH 8, 1971 A.D.!!

THEATRE IS COMING TO LIMA CAMPUS

Our own Lima Campus Theatre under the direction of Martha Farmer but with the assistance of many-is proud to present:

THE MARCH ONE-ACTS*

2 performances Thursday, March 11th
12:00 noon and 8:00 P.M.
NO ADMISSION CHARGE-Circle your calendar!

*THE LESSON by Eugene Ionesco

Marie.....	Donna Montgomery
The Student.....	Susan Stroh
The Professor.....	Andrew Carter

*THE APOLLO OF BELLAC by Jean Giraudoux

The Clerk.....	James Pauff
Agnes.....	Linda Rowan
Therese.....	Rosemary Sever
The Man.....	Randy Camper
The Vice-President.....	Dan Johnston
The President.....	W.D. Farley
Chevredent.....	Barbara Protsman
Mr. Cracheton.....	Prof. Richard Milum
Mr. Lepedura.....	Prof. George Coder
Mr. Resemutte.....	Tim Ziebel
Mr. Schultz.....	Mike May
The Chairman of the Board.....	Jack Rohrbach

THIS IS YOUR THEATRE. LET US ENTERTAIN YOU.
WE NEED YOU, THE AUDIENCE.

THIS HOT FLASH BEING PROBABLY THE MOST IMPORTANT HOT FLASH OF THE QUARTER, WE HAVE IMPORTANT THINGS IN IT LIKE THE LETTERS TO THE HOT FLASH MAN THAT DID NOT GET PRINTED LAST WEEK, AND ALL SORTS OF OTHER IMPORTANT THINGS FOR YOUR EDIFICATION ON THE PEDAGOGICAL, ADMINISTRATIVE AND RECREATIONAL THINGS GOING ON AROUND IN THIS SECTION OF MIDDLE AMERICA! WATCH OUT YOU NEVER KNOW WHERE THE HOT FLASH IS GOING TO STRIKE NEXT!

AND NOT TO BE FORGOTTEN ARE THESE LETTERS TO THE HOT FLASH, SOME OF THEM LEFT OVER FROM LAST WEEK AND SOME CLOSING LONG PERIODS OF RIVALRY PEACEFULLY AND WITH DIGNITY AS BEFITS AN INTELLECTUAL INSTITUTION, SUCH AS WHAT WE HAVE ON THIS CAMPUS!

DEAR H.F.:

In regard to the condition of the parking areas and driveways here at the Branch, I have been wondering where the monies paid by the students for "Parking Decals" have floated off to. If one stops to think, with perhaps 1500 or so students enrolled here, a very tidy sum has been contributed by us, probably upwards of \$20,000 per school year, not to mention money collected from those students paying for additional decals and ridiculous parking tickets based on Main Campus Traffic Regulations.

Having no idea where all this good money actually goes to, it would seem logical to say, with a quick look at our roads and parking facilities, that we students are receiving little or no benefit from this money at all. Various rumors have floated around where this money actually goes to, but why is there not a straight forward answer concerning how this money is used.

I certainly hope this money will be for the benefit of the students here at the Branch, and not for the Main Campus--and to be used solely for repair of roads and parking areas for the Branch.

At present, I can hardly help thinking we are at the mercy of "Big Brother" down at Main Campus.

At any rate--Mr. H.F.M.--what is your response?

Tom Tolan

P.S: The sad thing about this situation is that my writing this letter has occurred. Why do such seemingly simple situations have to be questioned constantly?

Dear Mr. Tolan:

Not knowing very much about the world of business and finance, I can not answer your letter very well, only by saying as I have said before, I can see people who travel by automobile do have some problems sometimes. I refer you and our loyal readers to the letter on the next page from our business officer, Frank Hill. Yours truly, H.F.M.

THIS SPACE IS FOR THE BENEFIT OF THOSE PEOPLE WHO PRODUCE THE HOT FLASH, THE HOT FLASH STAFF.

Dear Mr. Tolan:

We welcome this opportunity to respond to the questions raised by you regarding parking fees and facilities.

In an attempt to present the pertinent facts in a logical manner, allow us to show estimated income, expenditures, and anticipated expenditures from 1967-68 (first year of paid parking) to the present year to date:

Income 1967-68 to current date

Parking fees	\$60,550.00
Violations	2,800.00
Total Income	\$63,350.00

Expenditures 1967-68 to current date

Refunds	\$1,410.00
Maintenance & Supplies	16,970.00
Wooded Lot	5,000.00
Access Road	36,000.00
	\$59,380.00

Note: Estimate does not include personnel expenses of custodial staff or law enforcement.

Anticipated Expenditures 1970-71

Creation of new lot	\$85,000.00
New lot lighting	15,000.00
Wooded lot lighting	15,000.00
Repaving of lots & roads	85,000.00
	\$200,000.00

The creation of a new facility and the upgrading of present facilities has been of prime concern for the last year. In fact, in February of 1970 requests were forwarded to the appropriate departments in Columbus regarding the necessary clearances and approvals to proceed on the projects listed under Anticipated Expenditures. It was our desires that these projects would be completed this last summer. Because of Columbus Campus problems last spring the necessary help was not forthcoming.

These proposals are now in the process of having specifications drawn, land assignments made, drainage investigation, etc. We anticipate the creation of a lighted lot accommodating 230 cars; the resurfacing of existing drives and lots with asphalt; and the lighting of the wooded lot. The time schedule now calls for summer completion.

We readily acknowledge the poor condition of our roads and lots but are actively attempting to solve these problems. We respectfully request the understanding of the students and faculty regarding this situation. "Cold Patch" is not available to us when temperatures are below freezing, nor will it adhere to a hole containing water or moisture. We will continue to use stone and

LETTER

PAGE FOUR!

look for a more permanent type repair as the weather allows.

May I assure you that all funds generated by the Lima Campus are retained for it's benefit and the only income Columbus receives from us is for services provided. If you or any other interested persons, have additional questions regarding parking, please feel free to stop at the office of Dr. Biddle or myself. We will be glad to talk to you.

Frank Hill
Business Officer
OSU-Lima

ANOTHER LETTER TO THE HOT FLASH MAN LEFT OVER FROM LAST WEEK!

Dearest of the Hot Flash Man,

We have heard by rumor that you travel by lightning bolt. Therefore, if you are in the vicinity of the basement one minute and need to be on the fourth floor the next, you probably have no problem attaining your goal. However, we mere mortals (students at OSU-Lima) to achieve this goal must either break a leg or suffer a heart attack. How you break a leg is up to you, but the easiest way to have a heart attack is to struggle up the some 96 steps from the basement to the top floor.

We realize that the elevator was not put in for student use, perhaps because we are to keep physically fit. Never the less, should not the instructors also keep in prime shape? For example, we have observed several instructors using the elevator to commute from perhaps the first floor to the second. What is the difference between the instructor tying up the elevator for this short jaunt as opposed to a student using the elevator for a longer one?

Here at this time we would like to conclude by saying we feel that any student who possesses the ingenuity to get on the elevator should be allowed to reach his destination.

POOH and Raquel

Dear POOH and Raquel,

Yes, the rumor you heard is true, I do travel by lightning bolt. Therefore I can be, if necessary in the basement one minute and on the fourth floor in an instant or less. However, I plan my schedule such that if I am in the commons having a cup of flite fuel (Pepsi-Cola), I leave with 5 or 6 minutes to spare to reach the fourth floor. (I have only occasion to do this once every 46th day, that being the half-life of my special flite fuel.) The reason I leave the basement area with time to spare is to avoid collisions with the mortal students. The first day I had to make such a fast trip to 4, because I didn't plan ahead, I collided with a number of students and I almost injured myself on the third floor turn. (To say nothing about the shock of the students on finding a lightning bolt in Galvin Hall.)

I agree that all students can not be using the elevators. But I can not say, because I am not the administration, anything about the elevator use. However, I do know that students aren't insured for elevator accidents. But then I don't suppose they are for running into lightning bolts on the third floor either. Guess we need word from the administration on this issue.

Sincerely and with best wishes from Thor and all of the Hot Flash Gang, The Hot Flash Man.

SIGMA PI MU ANNOUNCEMENTS

Members of Sigma Pi Mu met in a noon day luncheon to honor Dr. Colombini and the entertainment committee, with whom they have worked this year. Plans are materializing for the Opera Club on campus.

New members this quarter were faculty honorary membership to Mr. Robert Sedoris, and student members:

Bill Clinger	Janice Lehman
Pamela Grear	Linda Rowan
Dick Hone	Dennis Walker
Steve Howard	Cathy Woodward

Spirits named to Sigma Pi Mu are:

Jean Bechtel	Wilma Mattis	Pat Warnecke
Maryjane Cisco	Martha Miller	Diane Friemoth
Steve Diller	Anne Sapienza	
Bill Grimes	Karen Troyer	
Debby Hooker	David Warder	
Kathy Klopfenstein		

Old members are:

Andy Carter	Steve Light
Sally Doernberg	Nancy Longmeier
Linda Falter	Linda McMullen
Gene Fraley	Virginia Pope
Randy Hoblet	Stephen Sqartz
Linda Keneipp	Bill Webb

IMPORTANT NEWS FOR POETS AND PROSE WRITERS:

The Lima-OSU English Club is planning to put out a publication of poetry, short stories and literary essays at the end of May.

Any OSU-Lima student that would like to submit something for consideration for the publication is invited to turn it into Mr. Milum, 410F; Mrs. Georgiana, 410c; or Cyndy Bryan.

The entries submitted will be read by three judges outside our campus. The best ones will be returned to us and we will have them printed into a booklet for distribution at our campus.

There is no limit on the number of entries you may submit. They are to be double-spaced typed. Please submit all entries by April 9.

BLOOD DONOR DAY: SPONSORED BY MEDICAL CAREERS CLUB

Give a little of yourself! Participate in the American Red Cross Blood Donor Day Tuesday, March 16th in the Cafeteria.

The goal of the Campus is 175 units (each unit being a little less than one pint). Blood is desperately needed. It is used to help the sick by supplying nutrients that have been lost; to aid the injured by supplying vital components; and to guard the healthy thru immune vaccines made from blood derivatives.

Remember, blood cannot be synthesized in any laboratory except that of the human body. The demand is not greater than the supply although the demand may be greater than the donation. What would you do if one unit of blood was all that was necessary for your survival but there was none for you?

(next page)

BLOOD DONOR DAY FACTS CONTINUED

If you are relatively healthy, between the ages of 18 and 65, and are interested in donating a unit, stop by the information table which will be set up in the lobby of Galvin Hall and at the rear of the Cafeteria at various hours during this week. Why not make an appointment today?

DO YOU KNOW WHOSE SOCIAL SECURITY NUMBER IS [REDACTED]?

If you belong to this number, contact Dr. Brim or Gary Weaver.

FINE ARTS FILM SERIES: MACBETH WITH ORSON WELLES

The screen adaptation by Orson Welles of Shakespeare's immortal tragedy. This is exciting filmmaking, strong in the characterization of the title role played by Welles himself; and powerfully evocative of the portentous mood and corrupt atmosphere of the ancient Scottish kingdom. Watch for announcements of its showing this week.

ANOTHER EARTH EDITORIAL: ONE OF THE MANY WE HAD THIS QUARTER

By the end of March, Congress is expected to make the final decision whether or not to appropriate \$290 million to keep the SST prototype program on schedule. At this point, organized labor and the aircraft industry are launching a strong effort to enlist public support for the SST program. The labor industry group is buying full page ads in major U.S. newspapers to convince the American Public that it is in their best interests to continue a \$1.3 billion dollar program in federal funds to get two SST prototypes into the air by 1973. Richard Nixon, while claiming that the administration is waging a war against pollution in this country, is literally "breaking his back" to shove the bill through Congress before the resistance becomes too strong. The facts show that the SST backers are concerned about economic gain, with little regard for the damage to our environment.

In January 1965 at the White Sands Missile Range, New Mexico, "Gordon Baines, Director of the nation's SST program, was telling newsmen that many persons who claimed their property had been damaged by sonic booms were only imagining the damage. 'I believe there's a great deal of psychology in this,' he explained, when-----WHAM! A jet fighter pilot in a F-104 broke through the sound at an altitude of only 500 ft. The booming shockwave which followed blew out two 7 by 12 feet plate-glass windows".....(PARADE, JAN. 17, 1965)

Just the other day, Dr. Fred Singer, an SST backer, attempted to discount a theory that SST's could increase skin cancer in the United States by at least 5,000 cases a year by reducing the stratosphere's radiation-shielding ozone. He said ozone is not the stratosphere's only filter and added that the theory's chief proponent, Dr. James E. McDonald, "is playing a numbers game." In turn, we would like to ask what kind of game Dr. Singer is planning on playing with our atmosphere. We'd like to remind him that it took millions of years to develop the fragile envelope of gases which surround this planet and that it just might be possible that the survival of life on this planet depends on the stratosphere to protect it from outside radiation. Why should we take the chance of upsetting such a perfect system. Dr. Singer says that ozone is not the stratosphere's only filter. He acts as if it is expendable, that we could decimate our supply of ozone and think nothing of it. One tends to get the impression that he is one of those people who would "sell the sunset, if somebody would put a price on it."

Singer also said, "there is no question that the SST is going to release some pollutants into the atmosphere, but it is doubtful(cont.)

whether they will be of any significance." And I suppose that Dr. Singer would also say that the DDT that is now present in almost every living creature is not significant. And that the mercury that is in our fish is not significant. And perhaps Dr. Singer also believes that people are not significant!

WITH THE SST VOTE DRAWING CLOSER, LETTERS TO CONGRESS MAY BE A DECIDING FACTOR. PRESENT INDICATIONS ARE THAT THE VOTE WILL BE CLOSE. DON'T SUPPORT A "WHITE ELEPHANT", AS THE SST HAS BEEN TERMED. ENCOURAGE CONGRESS TO STOP THE SST FUNDING AND TO CHANNEL THE MONEY TOWARD A BETTER CAUSE. LET IT BE OUR PRIORITY TO IMPROVE THE QUALITY OF LIFE ON THIS PLANET. FUTURE GENERATIONS WILL SURELY THANK US.

PHOTOCONTEST RULES

If you missed the previous rules list in the Hot Flash the rules for the photo contest are:

1. Photos no larger than 11"X14".
2. No mounting required.
3. Entries turned into the secretary in the Student Activities Building no later than March 10th.
4. Transparencies no larger than 2" X 2".
5. You are encouraged to set up your own display using your own creativity or you may indicate when you turn your entries in if you want the Committee to set up your display.
6. Put your name on display, photo, or slide mount. Also, please indicate if you are a currently enrolled student.

Prizes of \$25, \$10 and \$5 will be awarded.

Championship Game

AND THAT'S THE SPORTS NEWS
FOR THIS QUARTER FOLKS AND
SPORT FANS.

AND NOW FOR THE HOT FLASH'S FIRST PIECE OF PAID ADVERTISING!

One of the giants of motion picture entertainment, Walt Disney's FANTASIA, will soon be back for an extended run at The Ohio Theatre, with all the visual magic and musical magnificence that has brought it world-wide acclaim.

Fantasia will be playing soon, watch your local newspaper for details.

A FILM WILL BE SHOWN TOMORROW IN ROOM 118 AT 12:00! DETAILS BELOW!

BABY, THE RAIN MUST FALL, with Lee Remick, Steve McQueen, Don Murray, Paul Fix. The creators of To Kill A Mockingbird have turned their attention to another absorbing drama taking place in a little Texas town. McQueen is an emotionallly unstable frustrated singer and composer who, returning from prison, is faced with the domination of his savage spinster foster mother. He tries to make a new life for himself and is frustrated at every turn by the mother and his wife and child. Like Mockingbird, the simple outline of the story can't begin to do justice to the questions raised by this simple haunting film.

SO BE SURE TO SEE THIS FILM TOMORROW IN ROOM 118 AT 12:00! SEE YOU.

AND TO CLOSE AN OLD CONTROVERSY THAT HAS BEEN DORMANT FOR SEVERAL WEEKS WE HAVE THE FOLLOWING LETTER FOR YOUR EDIFICATION AND AMUSEMENT

Dear Hot Flash Man

I would like to withdraw my suggestion for a name change. Although I still find the name of the paper to be crude and vulgar, I have completely fallen in love with those cute little lightning bolts. As I have heard you say as you prepare to streak off into the sky which is your home: "up up lightning bolt and away" or was that "on lightning. on bolt. on Thor and Hot Flash."

Tincher

Dear Tincher

Just for being so nice and humble you can have the free subscription to the Hot Flash for one year or quarter (which ever you prefer) and lifetime immunity to lightning bolts compliments of Thor. However I think you will find sometimes I say:

"You've got a lot to live, and lightning bolts got a lot to give."
or "It's Pepsi, for those who think like lightning."

Sorry about that,
The Hot Flash Man

HIGHLIGHTS OF THE QUARTER FOR YOUR EDIFICATION AND AMUSEMENT AND SUCH

Congratulations to Mrs. Vergene Colloms for the following:

Notified by the Board of Trustees of the National Register of Prominent Americans and International Notables of Nomination for biographical inscription in the 1972-73 Register.

A second listing will be carried in the World Scope Two Thousand Women of Achievement.

Besides being listed in Who's Who of American Women-biographical listings are in eight additional Who's Who publications.

Congratulations to Dr. Thiry again for being named Assistant Professor. of History and good luck Lutheran-Hunting in Transylvania.

AND TO EVERYBODY OUT THERE IN HOT FLASH READER LAND I LEAVE OUR
BEST WISHES FOR EVERYBODY FOR THE NEXT WEEK AND THE SPRING BREAK.

The Hot Flash Man and
Gary Weaver
Ruth Ann Loar.

AND BEST WISHES FOR MR. MILUM AND ALL THOSE PEOPLE WRITING THOSE
DISSERTATIONS AND DISSERTATIONS AND DISSERTATIONS ~~AND~~ DISSERTATIONS.

AND BEST WISHES FOR ALL THOSE PEOPLE WHO HAD TO SUFFER THROUGH
READING THIS SHEET OF NEWS.

AND HOPE FOR THOSE PEOPLE WONDERING WHO THE HOT FLASH MAN IS.

AND LOADS OF LUCK FOR ALL THOSE PEOPLE OF THE CSA, WHOM I TAKE NOTES
OF.

AND A HOPE THAT I DON'T HAVE TOO MANY DANGLING PARTICIPLES NEXT
QUARTER.

AND BEST WISHES TO POOH, RAQUEL, TINCHER, TOM TOLAN, WM. BEAMEN, THE BMA'S
ME, MILLER AND THOSE OTHERS WHO WROTE LETTERS TO ME.

The preceding box of sentences brought to you by the HOT FLASH MAN.

SO REMEMBER OUT THERE AMONG THE CORNFIELDS AND REFINERIES OF
HOT FLASH READER LAND YOU MAY HEAR A RUMBLING AND A LIGHTNING
BOLT OR TWO AND THE FOLLOWING DITTY TO THE TUNE OF SECRET
AGENT MAN:

There's a man who lives a life of typing
Every word he types is like lightning.
For every word he types
Another lightning bolt strikes.
Odds are he won't live to type tommorrow.

The Hot Flash Man
The Hot Flash Man
They've given you a typewriter and taken away your name.

REALLY THOUGH IT HAS BEEN A LOT OF FUN TYPING OF THIS PAPER AND
MAKING A FEW THINGS UP HERE AND THERE AND WE ALL HOPE TO BE BACK
NEXT QUARTER, FOR MORE THRILLING ISSUES OF THE HOT FLASH.

 **The Hot FLASH** 
STRIKES AGAIN
